

Factsheet

Specification

**Investment goal**

The investment goal is to achieve a high asset protection in the medium to the long term, especially when faced with financial and currency crisis as well as tendencies to monetary depreciation. In the interest of the investor, the Fund strives to maintain and increase the purchasing power of the capital invested.

**Investment strategy**

The SafePort Focus Fund is a fund of funds that invests the fund assets worldwide in investment funds or comparable collective investment instruments. The selection of individual investment funds or collective investment instruments and their weighting is the responsibility of the asset manager.

**Specific aspects**

Overall, the SafePort Focus Fund's investment strategy aims to achieve a balanced relationship between risk and return by investing in non-correlated investments that can behave independently of each other.

Performance since first issuance

Restart track records

From April 2024, the investment strategy of the SafePort Focus Fund was fundamentally further developed in order to exploit market opportunities even more and to optimize the return potential. This strategic reorientation is reflected in a restart of the track records. The adjustment serves to continue to meet the high standards and to successfully shape the future of the fund. The relaunch of the track record documents the development in value since the since the strategic turning point of the fund. Detailed information on the historical performance prior to the relaunch is available on request at any time.
